

Family Account Management

Experian's Family Account Management feature allows subscribers to extend identity theft protection to friends and loved ones at a discounted price.

- Subscribers simply need to input the email addresses of those they wish to enroll within the portal, which will trigger an email notification with instructions on how to enroll in the family plan.
- The family plan is configurable; the services do not need to match those of the primary subscriber.
- The number of available subscriptions into the family plan is also configurable.

Portal-based subscription management

SHARE YOUR IDNOTIFY BENEFITS

As a part of our family account program, you're eligible to invite up to 5 friends or family members to enjoy your IDnotify benefits at no cost to them. You can invite anyone over age 18 to join your family account. When they have activated their memberships, your family account participants will appear in the list of subscribed users below.

ENROLL NOW

Sincerely,
IDnotify

Family Account Management fulfills a common need for customers to extend identity protection services to those they care about. It can also help your business attract and retain customers who want extended account options. Strengthen your customer relationships by providing protection to what matters most - family.
